

SERON SECURITY

Our Business is Keeping Others Out of Your Business!®

“9 out of 10 small business computer networks
have undetected, potentially serious IT problems.”

We are experienced security experts, helping small businesses comply with technology regulations – as well as assisting them with ongoing tech support.

Over 70% of cyber-attacks target small businesses.

We provide a free, no-obligation analysis of your business network and technology to identify vulnerabilities that could leave your organization at risk of a business interruption, data compromise, professional penalties, law suits...or worse.

60% of small companies will go out of business
within 6 months of a cyber-attack.

“... all [professional] companies, no matter their size, are required to have robust cybersecurity programs and policies to protect technology systems and information.”
